IMPACTS ON ANIMALS IN  
A CHANGING CLIMATE

ANIMALLAWCONFERENCE.ORG

- a. How have you experienced climate change affecting animals firsthand?
- b. Our use of animals is contributing to climate change and climate change is contributing to biodiversity loss and animal suffering. How do we go about addressing both issues or do you think we should address one before the other?
- c. Climate change and its impact on animals is a global problem. What are some ways we could address this issue on an international level, or do you think we need to start at the national level?
- d. What do you feel is the most pressing issue that needs to be addressed related to the impact climate change is having on animals?
