- a.** Aside from industrial animal agriculture, what are other leading causes of climate change?
- b.** What are some meaningful steps that you can take to effect positive change for animals?
- c.** What are some meaningful steps that our chapter can take to effect positive change for animals? Can we get the school on board?
- d.** Climate change as a whole effects animals. Do you think it is best to focus on a large contributor like industrial animal agriculture or should we start somewhere smaller to protect animals?
